

## Journal for Global Negotiation Faculty Member Partnership

This Partnership Agreement ("Agreement") is made between the faculty member **[Name, Institution, Faculty]** ("Faculty Member") and the Journal for Global Negotiation ("Journal"), with the intention to foster collaboration and facilitate the nomination of outstanding faculty work for publication in the Journal.

### 1. Purpose of the Agreement

The Journal provides a platform for publishing high-quality research papers in the field of global negotiation. While it encourages submissions from academics in their early careers, every faculty member is equally invited to submit their work.

The scope of this Agreement is to establish guidelines for faculty members who wish to nominate faculty works ("submissions") for publication in the Journal.

### 2. Partnership Request and Confirmation

Faculty members wishing to enter into a partnership with the Journal must submit a written request to the Project Coordinator of the Journal. This request is subject to approval by the Chair of Editors.

The partnership is confirmed by the signature of both the Project Coordinator and the faculty member. Once the partnership is confirmed, the faculty member is entitled to nominate manuscripts for publication in the Journal under the terms outlined below.

### 3. Open Access

All submissions published in the Journal are open-access, ensuring that they are freely available to the global academic and practitioner community.

### 4. Scope of Submissions

Nominated submissions should address topics in the field of global negotiation, broadly defined. This may include case studies, thematic analyses, explorations of negotiation-related issues, or the development of new theories. The Journal encourages interdisciplinary research that bridges multiple academic fields, as long as the core focus remains on negotiation, conflict analysis, or alternative dispute resolution methods (e.g., mediation, conciliation, facilitation).

The papers must engage with issues of global importance, though the level of analysis can range from the local to the international scale.

## 5. Nomination Process

### 5.1 Submission:

Authors, including students and faculty, are required to submit their manuscripts directly to the Journal, with the nominating faculty member included in cc. The author(s) must provide context regarding the manuscript, including details of the organisation and/ or academic program in which the paper was produced and any grades received.

### 5.2 Verification:

If an author submits a paper without the nominating faculty member in copy or without proper recommendation, the editorial team will seek confirmation from the faculty member to verify their support of the submission.

### 5.3 Faculty Responsibility:

The faculty member is responsible for ensuring that submissions made with their name attached have their approval. The faculty member is expected to inform the editorial team of any discrepancies.

## 6. Acknowledgement

All work published in the Journal will acknowledge the affiliation of the author(s), including their institution and, where applicable, the educational program from which the research emerged.

## 7. Partnership Listing on Journal Website

If a faculty member or program coordinator wishes to have their university listed as a partner on the Journal's website, this request must be explicitly stated to the Project Coordinator of the Journal. Additional information, such as the institution's logo, a weblink, and a brief description, will be requested.

## 8. Cooperation in Manuscript Review

The Journal may request the signing faculty member to participate in the peer review process for submissions by authors from institutions or organizations the faculty member is not affiliated with.

The faculty member agrees to review a maximum of four (4) submissions per year and is limited to nominating up to six (6) submissions per year for publication.

## 9. Termination of Agreement

Either party may terminate this Agreement at any time without providing a reason. Notice of termination must be made in writing, and the termination will take effect 30 days after the written notice has been received.

Termination of the Agreement does not affect papers that have already been published or are currently under review at the time of termination.

## 10. Amendments

Any amendments to this Agreement must be made in writing and agreed upon by the faculty member, the Project Coordinator and the Chair of Editors.

## 11. Dispute Resolution

Any disputes arising under this Agreement shall be resolved amicably between the parties. If a resolution cannot be reached, the matter shall be referred to mediation or arbitration in accordance with the relevant European Union standards.

## 12. Signatures

By signing below, the undersigned acknowledges that they have read, understood, and agree to be bound by the terms and conditions set forth in this agreement. The undersigned further affirms that they have the authority to enter into this agreement and understand the implications of its terms.
